PROFESSIONAL SUMMARY

Motivated and detail-oriented Full Stack Web Developer (Fresher) with hands-on project, training, and internship experience building responsive, scalable web applications using Python, Django, Java, JavaScript, PHP, React.js, Node.js, and the MERN stack. Pursuing Master of Computer Applications (MCA) with a CGPA of 8.12 (First Class with Distinction). Completed a 6-month Python AI/ML internship delivering a full-stack e-commerce and inventory management system, including frontend development, backend development, database design, RESTful API integration, payment gateway integration, and live production deployment. Also completed a 6-month Front-End Developer training program, building hands-on proficiency in HTML5, CSS3, JavaScript, and responsive UI development. Solid foundation in object-oriented programming, data structures, relational and NoSQL databases (MySQL, MongoDB, SQLite), responsive web design, version control (Git/GitHub), and Agile/SDLC practices. Quick learner, strong problem-solver, and team player eager to contribute as an Entry-Level Full Stack Developer / Junior Software Developer / Web Developer Fresher.

Core Competencies: Full Stack Development, Front-End Development, Back-End Development, Web Application Development, REST API Development, Database Design, Object-Oriented Programming (OOP), Data Structures & Algorithms, Responsive Web Design, UI/UX Basics, Agile/Scrum, SDLC, Debugging & Testing, Git Version Control, Problem Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

Python AI/ML Developer Intern | Tech Innovation IT Solutions

Nov 2025 – Mar 2026

6-Month Full-Time Internship | Full Stack Development & AI/ML Application Engineering

- Developed the R.K Jewellery Shop Management System, a full-stack e-commerce and inventory management web application, using Python, Django, SQLite, Bootstrap 5, HTML5, CSS3, and Razorpay payment gateway integration.
- Engineered both frontend and backend modules, including responsive UI components, RESTful API integration, relational database schema design, and secure server-side business logic.
- Implemented end-to-end software development lifecycle (SDLC) tasks: requirements analysis, coding, testing, debugging, version control (Git), and full production deployment.
- Integrated Razorpay payment gateway for secure online transactions, improving checkout reliability and customer payment experience.
- Collaborated with cross-functional teams in an Agile environment, contributing production-ready code, troubleshooting issues, and maintaining professionalism, punctuality, and clear technical communication throughout the internship.

Front-End Developer Trainee | Oneway Akshar Technology LLP, Himmatnagar

Completed May 2024

6-Month Front-End Developer Training Program

- Completed a 6-month Front-End Developer training program, building practical proficiency in HTML5, CSS3, JavaScript, and responsive user-interface development.
- Built and styled front-end components and web pages under mentorship, strengthening skills in client-side scripting, responsive design, and cross-browser compatibility.
- Recognized by the organization for strong learning ability, punctuality, hardworking attitude, and clear interpersonal and technical communication throughout the training period.

PROJECTS

R.K Jewellery Shop Management System | Python AI/ML Internship Project

Tech Stack: Python, Django, SQLite, Bootstrap 5, Razorpay API, HTML5, CSS3, JavaScript

- Built a comprehensive e-commerce and inventory management system for a jewellery retail business, covering product catalog management, order processing, and stock tracking.
- Integrated Razorpay payment gateway for secure, real-time online payment processing and transaction handling.
- Designed a fully responsive, mobile-compatible user interface using Bootstrap 5 and modern CSS practices.
- Implemented relational database design and RESTful API integration to connect frontend and backend services efficiently.

College Management System | BCA Final Year Capstone Project

Tech Stack: PHP, MySQL, JavaScript, HTML5, CSS3

- Designed and developed a web-based college administration platform that automated manual processes, reducing administrative workload by 60%.
- Built student registration, role-based access control (RBAC), automated attendance tracking, and exam result management modules.
- Implemented secure authentication, MySQL database design, and dynamic server-side rendering using PHP and JavaScript.

EDUCATION

Master of Computer Applications (MCA) | Sankalchand Patel College of Engineering, Sankalchand Patel University 2024 - 2026

- CGPA: 8.12 | Grade: O (First Class with Distinction) | Sem I: 8.17, Sem II: 7.80, Sem III: 7.50, Sem IV: 9.00 (A+)

Bachelor of Computer Applications (BCA) | Asian Institute of Technology, Vadali (HNGU) 2021 - 2024

- SGPA: 8.69 | CGPA: 7.86 | Grade: O (First Class with Distinction)

Higher Secondary Certificate (HSC) | Shrimati S P Amin High School, Hatharva 2020 - 2021

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, PHP, C, C++, C#

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, MERN Stack, Responsive Web Design

Frameworks & Libraries: Django, Bootstrap 5, .NET, REST APIs

Databases: MySQL, MongoDB, SQLite, Database Design & Management

Tools & Platforms: Git, GitHub, Visual Studio Code, Razorpay Payment Gateway, Postman, API Integration

Concepts & Practices: Full Stack Web Development, Software Development Life Cycle (SDLC), Agile Methodology, Version Control, API Integration, Database Management, Responsive Design, AI/ML Application Development

CERTIFICATIONS & ACHIEVEMENTS

- Python AI/ML Internship Completion Certificate — Tech Innovation IT Solutions (March 2026)
- Front-End Developer Training Completion Certificate — Oneway Akshar Technology LLP, Himmatnagar (May 2024)
- AICTE ATAL Academy — Emerging Cyber Security Techniques for Resilient Network Infrastructure (Dec 2025) | ID: ATAL/2025/1750846519
- MERN Stack Development Workshop — Sankalchand Patel University (Sep 2025)
- Introduction to Computer Science I (CS50x) — Harvard University / edX (May 2025)
- GenAI Powered Data Analytics Job Simulation — Tata / Forage (June 2026)
- Introduction to Artificial Intelligence (June 2026)
- Fundamentals of Multichannel Content Marketing — Adobe / Nasscom FutureSkills Prime (June 2026)
